Network Rail chooses **i-nexus**

4 May 2007

Network Rail, the owner and operator of Britain's rail infrastructure, has chosen **i-nexus** for the creation of an integrated performance improvement system as part of its drive to deliver world-class infrastructure, operations and processes.

The system will connect people across the company's Operations and Customer Service, Maintenance, and Information Management business units, as well as its strategic transformation programme. Network Rail will use **i-nexus** to support the delivery of its portfolio of improvement projects, including its Six Sigma programme, driven by the company's strategic objectives and key performance indicators.

Its deployment of **i-nexus** will begin in the second quarter of 2007.

About i-nexus

i-nexus is the pre-eminent provider of web-based software for formulating, aligning and executing performance improvement in Fortune 500 leaders worldwide. Client companies include organizations such as Pfizer, BT, Royal Bank of Scotland, Network Rail, ALSTOM, AREVA, Staples, Hager, Vodafone, Centrica Carl Zeiss, CIBA Vision and Xchanging.

i-nexus provides a fully integrated suite of applications for the Corporate Performance Management, Project Portfolio Management and Business Process Management capabilities needed to effectively plan and execute organizational strategy. This is backed by powerful business intelligence capabilities to deliver executive and senior management reports on demand, in real-time or on a scheduled basis.

i-nexus is headquartered in Coventry, UK, with regional offices in Europe, North America and Asia.
