

PowerSteering Software Announces Upcoming Webcast: "Launching Lean Six Sigma with a Bang"

Brett Warland, Global Director of Process Excellence at PolyOne, will lead February 15 session hosted by iSixSigma Live!

February 4, 2011

CAMBRIDGE, MA -- PowerSteering Software, the leading provider of business-driven [project & portfolio management \(PPM\) solutions](#) for managing Lean Six Sigma and other strategic programs, will sponsor a new webcast on Tuesday, February at 11:30 a.m. (EST). The free session, "Launching Lean Six Sigma with a Bang," will be presented by PowerSteering customer Brett Warland, Global Director of Process Excellence at PolyOne, and is hosted in partnership with iSixSigma Live! Those interested in attending the event may [register online](#).

The webcast will reveal how PolyOne, a \$2 billion global provider of polymer materials and the recipient of the 2010 Process Excellence Award for Best Start-up Program, has leveraged Lean Six Sigma as the catalyst for stunning results in the midst of the economic downturn. Participants will learn how PolyOne has:

- Incorporated Lean Six Sigma as a permanent core competency
- Accelerated Lean Six Sigma deployment, training and cultural adoption
- Embraced engagement, alignment and accountability
- Reinforced the strategic importance of Lean Six Sigma to the CEO and other executives
- Relied on PowerSteering for consolidated deployment tracking and management

Past PowerSteering customer webcasts have featured Molex, Mobile Mini, NewPage, Merck, Mercy Medical Center and Ingersoll Rand. A [library of recorded sessions](#) is available on the PowerSteering website.
